**PVC Price Increase—September 1st**

Dear Valued JM Eagle Partner,

Two important PVC resin suppliers have recently declared force majeure.

Westlake Vinyls, Inc. declared today a system-wide force majeure condition for all PVC and VCM manufactured and shipped from its North American operations. Their Lake Charles, LA facilities have been adversely impacted by Hurricane Laura and have resulted in the shutdown of plant operations.

The most recent action comes on top of Formosa who claimed force majeure on 08-14.

Due to these shutdowns, the supply of raw materials will directly impact the entire PVC pipe market. Consequently, JM will be forced to cut back production but will use all our resources to get back to normal operations ASAP.

With this in mind, we are announcing that **all PVC products pricing will increase effective September 1st.**

**For PVC waterworks products specifically:**

*Immediate Ship  
Standard Term*

**Increased pricing for PVC will apply to all new and expired quotes.** We will monitor raw material costs and other industry conditions to determine if further action is necessary.

Thank you for your understanding and cooperation.

During these unprecedented times, all of us at JM Eagle hope that you, your team members, and your families are all safe and well.

Best Regards,

Neal Gordon  
VP, Waterworks Sales
