Presentation Topic

“Maintaining Critical Infrastructure Proactively & Efficiently”

Presenter: Alan Goodman, Hammerhead Trenchless

This presentation takes a proactive approach to address our aging infrastructure. Some of topics to be addressed are structural point repair, pipe bursting, & CIPP. Recent advancements in light curing technology have resulted in contractors becoming more efficient and limiting the risk on each jobsite. Municipalities are starting to take a more holistic approach to address both main and laterals within their system.

Meeting Questions
