## Presentation Topic

### “Common Misconceptions of PVC Pipe”

*Presenter: Rowena Patenaude (Westlake Pipe and Fittings) and Brooks Ryan (Uni-Bell PVC Pipe Association)*

This presentation will address typical questions that both non-users and users alike have about PVC pipe. Over 40,000 water and wastewater utilities in North America use PVC pipe. More than two million miles of PVC pipe are in service in North America; one million miles of water and one million miles of sewer pipe. This presentation draws on more than half a century of success that cities have had with PVC pipe in their systems.

## Meeting Questions

Contact: Adam Brown, Hazen and Sawyer

Phone: 831-521-9623
