Presentation Topic

“The Pressure’s On! Using Hydraulic Modeling to Diagnose Recycled Water System Surges”

Presenter: Bobby Vera (West Yost)

This presentation will highlight how focused field monitoring and a calibrated hydraulic model were used to investigate recurring pipeline breaks in Central San’s recycled water system. The analysis identified hydraulic transients associated with rapid customer demand changes and evaluated practical surge mitigation measures to improve system reliability.

Meeting Questions

Contact: Kingsley Kuang, EBMUD

Phone: 510-287-1393
